

Heating products - Tigex[®] 50

Tigex 25 »

Output up to 25 kW
Max. chimney height up to 8 m
Max. chimney dia./area Ø130 mm/169 cm²

NEW! Tigex 50

Output up to 100 kW
Max. chimney height up to 14 m
Max. chimney dia./area Ø200 mm/338 cm²

Advantages of the new Tigex 50

- Very high quality draught stabiliser with sensitive parts manufactured in spring steel, which helps it to always hold its form
- Manufactured in stainless steel to withstand corrosive chemicals (such as sulphuric acid) brought on by condensation
- Gas tight thanks to the door design with hinge on inside of door
- Very quite in operation thanks to the smart door and door-seal design
- Very durable and nice looking
- Self-cleaning hinge design to maintain long-term function
- Very accurate in draught regulation

Tigex[®] 50 - draught stabiliser from SPX Tigerholm

Tigex 50 draught stabiliser, developed (Design Patent pending) by SPX Tigerholm, is manufactured to the highest quality standards (DIN 4795). The ingenious gas-tight design prevents exhaust fumes from leaking. The accuracy in maintaining draught conditions in the heat exchanger will help to improve boiler efficiency.

Tigex 50 draught stabiliser

Article No.	Description
61500E	Tigex 50, without adapter, inside Ø 150 mm

Tigex 50 draught stabiliser for round flue pipe

Article No.	Description	Drawings (pdf)
61500/130E	Tigex 50 with adapter for round flue pipe Ø 130 mm	61500/130
61500/150E	Tigex 50 with adapter for round flue pipe Ø 150 mm	61500/150
61500/180E	Tigex 50 with adapter for round flue pipe Ø 180 mm	61500/180
61500/200E	Tigex 50 with adapter for round flue pipe Ø 200 mm	

Tigex 50 draught stabiliser for insulated 90°T-pipe

Article No.	Description
61550/180E	Tigex 50 with adapter for insulated T with OD 180 mm
61550/200E	Tigex 50 with adapter for insulated T with OD 200 mm
61550/250E	Tigex 50 with adapter for insulated T with OD 250 mm

Adapters for Tigex 50

Article No.	Description	Drawings (pdf)
64003	Adapter for cutting into square flue pipe	64003
64004	Adapter for soot door no. 2	64004
64005	Adapter for CTC 52°	64005
64015	Adapter for side mount on square flue pipe	64015

64005

64003

64016	Adapter for soot door no. 1	64016
64017	Adapter for TMV 45°	64017
64024	Adapter for ATMOS	64024
64025	Adapter for DIOM TOPP, NIBE/TMV	64025
64037	Adapter for ALBIN 7811	64037
64039	Adapter B7	64039
64051	Adapter B8	64051
64056	Adapter Special 1	64056
