

See-Thru Fuel Filters

These popular *GoldenRod* See-Thru bowl filters allow for visual monitoring of the fuel flow. Models 495 and 496, when installed in combination, deliver clean, moisture free fuel to the tank every time. The zinc die cast top cap and alcohol-resistant polymer bowl stand up to the toughest applications and weather conditions. These units allow working pressures of 150 psi and flows of 5 gpm (gravity fed) at 24" head. The See-Thru bowl has an easy-to-use sediment drain valve. Replacement elements are interchangeable. Now available with 3/4" or 1" NPT Pipe fittings.

495 Fuel Filter

For removing microscopic particles (10 microns) of rust, sand, dirt, scale and lint. 366 sq. inches of filter surface for efficient action. Unit works well by itself or in combination with the No. 496 fuel filter for added protection from water in the fuel. 9 1/2" high x 4" diameter.

496 WATER-BLOCK® Water Absorbing Fuel Filter

Removes water from gasoline and diesel fuel. 15 micron filtration. Water-absorbing polymers trap water, restricting fuel flow when it is time to replace the element. May be used by itself or in combination with a No. 495 fuel filter for added protection against microscopic particle contamination. 9 1/2" high by 4" diameter.

GoldenRod Fuel Tank Filters are ideal for farm and ranch, construction, light industrial and recreational uses. 2 distinct filtering systems are available, See-Thru bowl models with replaceable elements, or Spin-On disposable canisters. Both feature a durable zinc die-cast top cap.

Fuel Tank Filter Specifications

Model No.	Description	Master Carton Quantity
495-3/4	Standard filter with 3/4" NPT top cap, indiv. boxed.	6
495	Standard filter with 1" NPT top cap, indiv. boxed.	6
496-3/4	WATER-BLOCK filter with 3/4" NPT top cap, indiv. boxed.	6
496	WATER-BLOCK filter with 1" NPT top cap, indiv. boxed.	6
470-3/4	Top Cap with 3/4" NPT.	6
470-1	Top Cap with 1" NPT.	6
470-5	Filter Element.	12
470-15	Strainer Stainless Steel 40 mesh.	12
470-16	Strainer Stainless Steel 80 mesh.	12
495-4	Replacement Bowl for 495 & 496 Filters.	6
491	Fuel Filter Wrench for 495 & 496 Filters.	6
496-5	Water Absorbing Filter Element.	12
595-3/4	Standard filter with 3/4" NPT top cap, indiv. boxed.	6
595	Standard filter with 1" NPT top cap, indiv. boxed.	6
596-3/4	WATER-BLOCK filter with 3/4" NPT top cap, indiv. boxed.	6
596	WATER-BLOCK filter with 1" NPT top cap, indiv. boxed.	6
595-5	Standard filter-replacement canister only.	12
596-5	WATER-BLOCK filter- replacement canister only.	12
570-3/4	Top Cap with 3/4" NPT.	6
570-1	Top Cap with 1" NPT.	6

MADE IN USA

Spin-On Replacement Canisters Installed in Combination

Spin-On Filters

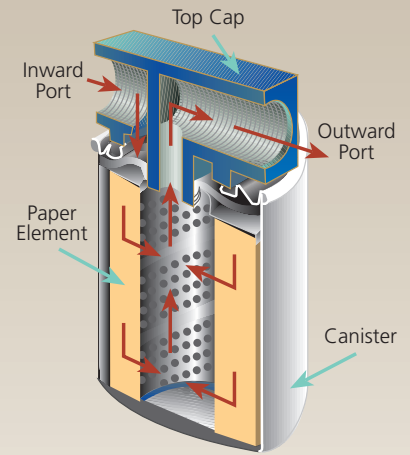

500 series Spin-On models offer a convenient disposable canister. 2 models cover virtually all fuel tank filtering needs and can be used with gasoline, diesel fuel and gasohol.

595 GoldenRod Standard Spin-On Fuel Filter

For use with gasoline, gasohol and diesel fuels. Filters microscopic particles (10 microns) of rust, sand, dirt, scale and lint. 510 sq. in. of filtration area. Working pressure up to 50 PSI. Maximum recommended working conditions: 50 psi and/or 12 gpm. Ideal for farm, construction, industrial and service station use.

596 WATER-BLOCK® Spin-On Fuel Filter

For use with gasoline and diesel fuels. Filters microscopic particles (10 microns) and absorbs water from fuel. Restricts fuel flow as water is absorbed, signaling the need for an element change. 201 sq. in. of filtration area. Maximum recommended working conditions: 50 psi and/or 12 gpm. Ideal for farm, construction and service station use.

- ◆ Zinc die-cast top cap.
- ◆ Now available with 3/4" or 1" NPT Pipe fittings.
- ◆ Effective filtration eliminates costly fuel-related repairs and downtime.
- ◆ Easy to change or install.
- ◆ Also available with 1" British Standard fine thread straight.

495-6 Merchandiser

Helps you show and sell Fuel Tank Filters. Just add a 495 Fuel Tank Filter. Dimensions: Depth 11 1/2", width 10", height 10", (allow 2 1/2" for filter cap). Shipped flat.

Filter Accessories

470 Top Cap

Use with D-L GoldenRod 400 series filters. Heavy-duty zinc die cast. Available with 3/4" or 1" NPT pipe fittings.

470-15

Stainless steel strainer. 40 mesh.

470-16

Stainless steel strainer. 80 mesh.

470-5

Standard 10 micron replacement element.

491 Fuel Filter Wrench

Fits 495-4 filter bowl for easy, damage-free removal.

495-4

Replacement bowl.

496-5

Water-Block water absorbing replacement element.

570 Top Cap

Use with D-L GoldenRod 500 series Spin-On fuel filters. Heavy-duty zinc die-cast. Available with 3/4" or 1" NPT pipe fittings.
